CURRENT POSITION (Summer 2020 – To present)

Ph.D. Student and Graduate Research Assistant | Soil and Crop Sciences Department | Texas A&M University | College of Agriculture and Life Sciences | United States. GPA: 4.00

Ph.D. Project Title: Investigating the Biological Nitrification Inhibition Activity in Selected Sorghum Genotypes.

Duties: Graduate Research Assistant (05/2020- To present)

Perform research in the area of Biological Nitrification Inhibition in sorghum focusing on BNI expression in different genotypes and testing different nitrogen fertilizers. Investigate nitrification rates, nitrous oxide emissions, soil microorganisms, and nitrogen use efficiency in field and greenhouse conditions. Detailed duties include experiment design, data collection and analysis, manuscript preparation, and presenting findings. Tools/equipment used includes LICOR gas analyzers, spectrophotometers, elemental, and standard soil and plant analysis instruments.

Duties: Data collection, analysis, report writing, manuscript preparation, and publishing.

Supervisory Committee:

Dr. Nithya Rajan and Dr. Sakiko Okumoto (Chair)

Dr. William L. Rooney

Dr. Sanjay Antony-Babu

PREVIOUS UNIVERSITY EDUCATION

1. **Master of Science, Horticulture | University of Florida | College of Agricultural and Life Sciences | United States.** GPA: 4.00 [Link](#)

M.Sc. Project Title: Unraveling the effect of advanced horticultural practices on Huanglongbing-affected grapefruit.

Duties: Graduate Research Assistant (01/2018-05/2020)

Performed research in the area of soil nutrient management in Huanglongbing-affected grapefruit focusing on advanced horticultural practices such as planting density and enhanced nutrition strategies. Investigated the effects of soil and foliar nutrient applications on tree health, fruit yield, and quality in different planting systems. Detailed duties included field trial management, data collection and analysis, manuscript preparation, and presentation of results. Tools/equipment used include soil moisture sensors, LICOR 6400, and standard soil and plant analysis instruments.

Supervisory committee:

Dr. Rhuanito Soranz Ferrarezi (Chair)

Dr. Davie M. Kadyampakeni

Dr. Kelly Morgan

2. **Bachelor of Science | Agriculture | Tribhuvan University | Institute of Agriculture and Animal Sciences | Nepal.** Grade: Distinction [Link](#)

Relevant coursework: Soil science, Agronomy, Horticulture, Statistics, Plant Physiology, Genetics and Plant Breeding, Biotechnology, Entomology, Plant Pathology, Biochemistry, Microbiology, Fodder production, Agricultural Economics, Social Mobilization, Extension education.

GRANT

Dinesh Phuyal and Dr. Nithya Rajan

- Title: "A Novel Approach for Reducing Nitrous Oxide Emission and Improving Nitrogen Fertilizer Use Efficiency of Sorghum."
-

- Submitted to: Southern Region SARE 2022 Graduate Student Grant Proposal.
- Amount Requested: \$16,226.
- Status: Not funded.

PROFESSIONAL MEMBERSHIP AND LEADERSHIP

2022- 2023	Vice President: Soil and Crop Sciences Graduate Organization
2021-2022	International Student Association (External Programs Committee)
2019-Present	Soil Science Society of America
2019-Present	Crop Science Society of America
2019-Present	American Society of Agronomy
2020-2021	NAPA Career and Outreach Committee
2018-2020	UF Treasure Coast Graduate Student Organization
2018-2020	Florida State Horticultural Society
2018-2020	American Society for Horticultural Science

FELLOWSHIP AND AWARDS

2022-23	<i>Encompass Scholar (ASA-CSSA-SSSA)</i> : Participated in a professional development workshop.
2022	<i>ASA-CSSA-SSSA SEED Ambassador (Scientists Engaging & Educating Decision-makers Ambassador)</i> : Participated in an advocacy training program to connect scientists with members of Congress.
2022-23	<i>Future Leaders in Science</i> : Selected to participate in the 2022 Virtual Congressional Visits Day. Visited the offices of Sen. Ted Cruz, Rep. Jake Ellzey, Rep. Roger Williams, and Rep. Henry Cuellar to discuss USDA funding for agricultural science.
2019	<i>Yara North America Crop Innovation Scholarship</i> : University of Florida College of Agricultural and Life Sciences: Awarded for outstanding academic and research record.
2019	<i>Center for Stress Resilient Agriculture, University of Florida</i> : To participate in an innovative root course.
2018	<i>LI-COR Biosciences Training Travel Award</i> : Participated in LICOR 6400 photosynthesis equipment training.
2012-2016	<i>Tribhuvan University Scholarship</i> : Awarded for outstanding academic performance across all eight semesters.
2012	<i>Tribhuvan University- TU Merit Admission Scholarship</i> : Awarded for securing a high score in the admission exam.

TEACHING EXPERIENCE

1. **Teaching Assistant, Soil Fertility and Plant Nutrient Management Laboratory (SCSC 432), Texas A & M University, United States**
Fall 2024: Assist with the laboratory component for fourteen undergraduate students, focusing on methods used in soil testing, fertilizer recommendations, and the chemical and physical properties of soils. Guide the determination and analysis of specific soil characteristics and support students in understanding and applying these techniques.
2. **Teaching Assistant, Soil Science (SCSC 301), Texas A & M University, United States**
Spring 2022: Supported both virtual and in-person instruction for fifty undergraduate students. Facilitated laboratory sessions that involved soil physical, chemical, and biological analysis and guided students in the interpretation of results. Assisted with the scientific evaluation of soil properties and their environmental roles. Also, proctored exams.
3. **Teaching Assistant, World Food and Fiber Crops (SCSC 105), Texas A & M University, United States**
Fall 2021: Assisted twenty-four undergraduate students in both lecture and laboratory settings. The course covered plant relationships, structure, development, and the environmental factors affecting crops. Supported students in plant data collection, statistical analysis, and report presentation, focusing on the technological aspects of agricultural practices and food production.
4. **Agriculture Instructor, Galkot Higher Secondary School, Baglung, Nepal**
2016 - 2017: Led an introductory entomology and vegetable production course for 30 high school students, fostering foundational knowledge in agricultural sciences.

EXTENSION ACTIVITIES

1. **ASA, CSSA, SSSA International Annual Meeting: Poster Judge**
Served as a Judge for five undergraduate poster competition on soil nutrition and plant physiology.
2. **Student Research Week, Texas A&M University**
March 2023: Served as a Judge, grading and scoring six posters from undergraduate and graduate students.
3. **Student Research Week, Texas A&M University**
January 2022: Served as a Judge, grading and scoring eight posters from undergraduate students.
4. **Florida Citrus Show**
January 2018 and 2019: Assisted at the registration desk and helped presenters load presentations. Ensured the audio and visual equipment functioned properly for over thirty presenters, serving over eight hundred attendees.
5. **Agricultural Workers Training**
January 2018: Interacted with growers and assisted them during the event. Set up and took down materials for the seminar, serving over three hundred attendees.
6. **Citrus Expo**
August 2019: Prepared and presented two posters at a grower's event:
 - Tree Density and Micronutrient Application on Grapefruit Affected by Huanglongbing.
 - Application of Soil Moisture Sensors.

ADVOCACY ACTIVITIES

Congressional Meetings 2022

- Selected among 14 SEED Ambassadors nationwide by the American Society of Agronomy.
 - Trained for a year to build trusted relationships between Science Societies and the Members of Congress.
 - Communicated with some Congressional Members (offices of Sen. Ted Cruz, Rep. Jake Ellzey, Rep. Roger Williams, and Rep. Henry Cuellar) via emails/phone and video calls and requested to support agricultural research and funding.
-

- Discussed the impact of USDA-funded research programs in addressing current and emerging agricultural problems.

CERTIFICATION

- FAA Part 107 UAV pilot License (Valid until Jan 2027) [Link](#)
- An Introduction to Evidence-Based Undergraduate STEM Teaching (From 2025 to Unexpired) [Link](#)

TRAVEL GRANTS

2022	<i>The Lloyd and Maxine Rooney Fellowship Endowment</i> : Presented research at an international conference.
2021	<i>The Lloyd and Maxine Rooney Fellowship Endowment</i> : International Travel scholarship (could not use it due to postponement of the conference).
2021	<i>Graduate Student Leadership Conference</i> : Participated in leadership training.
2019	<i>American Society for Horticultural Science</i> : Presented research at the ASHS international conference.
2019	<i>Graduate Student Council Travel Award</i> : Presented research at the ASHS international conference.
